

Tailor Made Fable

It will be with a mixture of awe and excitement that the four lads comprising Tailor Made Fable will board their flight to England for a week long visit, culminating in a gig which has been the

dream of many generations of musicians; that is, to walk onto the Cavern Club stage, that very same location from which John, Paul, George and Ringo began their onslaught and conquest of the world music scene.

After having won the first prize at the "Festival Envol et Macadam", which was held in Quebec in September 2007, Tailor Made Fable was invited by Liverpool City Council to perform on stage

as part of the Mathew Street Festival. The gig will be the band's first in Europe, and they are the first ever Quebec group to play at the Cavern.

In autumn 2007, the group signed a contract

with Groupe UniSpec Group & Disques VivaMusik Records, founded by Dany H. Poulin, to further develop their recording and performing careers, both locally and internationally.

Tailor Made Fable have recently been putting the final touches to their first album which will be released in Canada next fall on the VivaMusik label. Their first highly anticipated radio single will be released in Quebec within a few weeks.

Comprised of Rémi Chassé (vocals, guitar, and piano), Mike Normand (guitar and vocals), Matt Boulanger (bass and vocals) and P-E Beaudoin (drums and vocal), Tailor Made Fable are known for their hard driving rock, contagious melodies, and the uncommon originality of their lyrics.
