## A FRESH RADIO SINGLE FOR TAILOR MADE FABLE!

*"Monday Morning"*, is the second single released for radio play this week.

(Montreal, September 2nd 2009) – After a quick pause to film their first video clip directed by **Jean-René Grimard** and produced by **Disques VivaMusik Records**, pop rocks fab five **Tailor Made Fable** released « **Monday Morning** », as the second radio single off their debut album **All These Questions** released last spring. « **Monday Morning** » is a rocking new blue collar anthem with an original twist on a universal subject: the dreaded return to work on Monday morning!

With a meat and potatoes text mining the drudgery of routine, black humor and a partying spirit, Mike Normand delivers a Rock n' roll sermon about the fantasies and frustrations we all feel when faced with the inevitable approach of the unforgiving Monday morning alarm clocks ring!

*«You never wanna wake up on Monday morning  
You never wanna skip any holiday  
You never wanna end up driving down the same old road...»*

Completely addicting with its killer guitar riff intro, the tune « **Monday Morning** » is a bona fide new blue collar pop rock anthem inciting us to squeeze every last drop of party out of the weekend while waking the eternal adolescent slumbering in all of us faster than you can click play-repeat on your iPod!

*«We only wanna make an exception tonight  
An extension of our fair celebration time  
We only wanna make an exception tonight  
Escape the dreadful 9 to 5...»*

So why not escape that dreadful 9 à 5 and join the new TMF's community on the web at [www.tailormadefable.com](http://www.tailormadefable.com) or on MySpace at [www.myspace.com/tailormadefable](http://www.myspace.com/tailormadefable).

**All These Questions** was produced by **Oliver Haze** with the collaboration of **Stef Rancourt** (Pascale Picard), mixed in Vancouver by **John Webster** (Aerosmith, The Cult, Jonas) and mastered in Los Angeles by none other than **Eddy Schreyer** (The Offspring, Avenged Sevenfold, Queen). The album released last spring contains 12 original songs and is distributed by DEP / Universal Music Canada.
